

## Gallery Specialty Ltd.'s workmanship featured at Canada's Premier Facility

THE OTTAWA CONVENTION CENTRE

Toronto, ON, April 13, 2011

Canada's finest and most prestigious conference, convention and meeting place, the Ottawa Convention Centre (the OCC), was unveiled today.

The Ottawa Convention Centre, an elegant crystal building, features stainless steel doors with the Ottawa skyline sandblasted into them. These doors with custom fabricated stainless steel door pulls located, on the third level of the OCC, showcase the craftsmanship and expertise of Gallery Specialty.

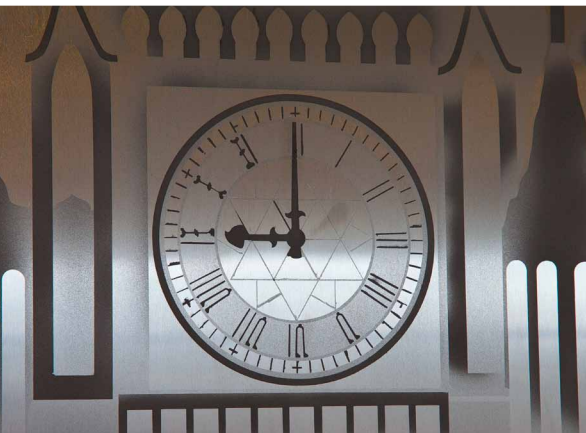

David Turk, President of Gallery Specialty Ltd., says, "The challenge on this project was to get the perfect silhouette effect with unique sandblasting techniques on the steel doors. It was a very time consuming project in nature. This master piece project was all hand crafted. I would like to thank Mr. Derek Hardy, a world renown architect from BBB Architect and Ms. Estelle Bourque, Project Manager of PCL Constructors Canada and Les Eaton, A. H. C. for this opportunity."

the OCC

## Another successful project by Gallery Specialty

*The Ottawa Convention Centre was designed and built by PCL Constructors and Brisbon Brook Baynon Architects. Working within a budget of \$159 million, PCL Constructors Canada and BBB delivered a state-of-the-art convention centre which emphasized sustainable design and energy and environmental efficiency.*
